

## PRODUCT CATALOGUE

**VERSION 2 2015** 

We at SDX® Thermobox® has been a reliable partner to professional chefs for over 40 years. Our part of your job is to provide security. You can focus on the food and know that from the moment it leaves the kitchen until served, stored it in the best way.

The fresh ingredients and good food must be good when served. You should also feel safe in that the technology works. The temperature is exactly right and that the boxes can withstand the sometimes rugged treatment they may face.

#### Correct temperature

The correct temperature is extremely important from a number of perspectives. Both to maintain the good quality and taste of the food, and to satisfy hygiene requirements.

To achieve this, the boxes are well insulated and equipped with digital temperature control to keep the temperature at the correct level during transport.

#### Low energy consumption

To ensure the best insulation properties, the boxes are insulated with polyurethane, which expands under high pressure and combines the outer and inner containers to form a strong and well insulated unit.

This ensures that the food is stored at the correct temperature with a very low power consumption and low operating costs.

The completely stainless steel interior with no joints or recesses is the obvious choice for hygienic food handling. Pressed stainless steel guides, a unique technology that delivers unmatched durability, increase safety and simplify cleaning.

#### Ergonomic and economic

The functional and straightforward design in combination with the free-rolling wheels makes transport from kitchen to diner simple and ergonomic.

An SDX® Thermobox® is designed to be compact and lightweight, which minimises the space required during both storage and transport. This saves both resources and the environment.

Smooth storage surface with the possibility for securing loads

Welded stainless steel inside containers with smooth surfaces, high durability and the best hygiene properties

> The doors can be opened \_ 270 degrees

Deep drawn guides, easy cleaning and increased safety

Short heating or cooling time

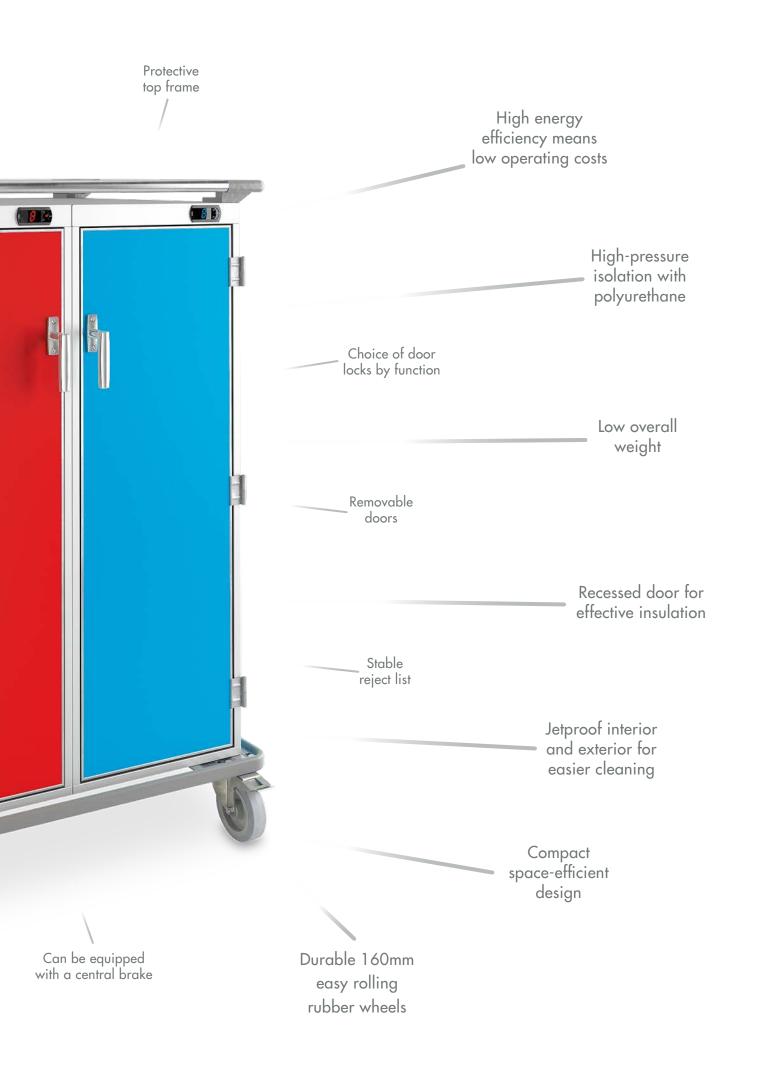

Air gaps for internal air circulation and even temperature distribution

Durable door gaskets

Electronically adjustable temperature control

## A complete product range for all your food transportation needs.

We offer a range of products spanning from the simple insulated S-box to anvanced cooling and heating systems in the K- and F-boxes.

<u>[S]</u>	THERMOBOX® S - NEUTRAL THERMOBOX  SDX can provide a full range of neutral thermobox options which include insulation only.	8
	THERMOBOX® C – ACTIVE COOLING  Active cooling refrigeration for storing chilled food over longer periods of time.	14
	THERMOBOX® K – COMPRESSOR COOLING  Extremely efficient compressor cooling accounts for the highest standards refrigeration.	18
E	THERMOBOX® E – ELECTRIC HEATING  Have an advanced heating system with extremely high reliability. It keeps the temperature within the desired values and with minimal temperature fluctuations.	22
F	THERMOBOX® F – CONVECTION HEATING  Convection heat with added value and many benefits! Short heating time. Hot air fan to compensate temperature losses. Flexible heating cabinet.	28
8 8	THERMOBOX® – COMBINATIONS  Transport and storage of both hot and chilled food in the same unit.	34
	PORTABLE THERMOBOX®	48
	TROLLEYS	49
	THERMOBOX® – OPTIONS AND ACCESSORIES	52

#### THERMOBOX® S

Is our simplest product. A box that you cool down by putting it in a cold store or using the SDX® cooling plate.

The interior is made entirely of stainless steel with pressed guides and no joints. Insulated with polyurethane, which expands under high pressure and combines the outer and inner containers to form a strong and well insulated unit.

S boxes are ideal for food that is to be served cold as well as for transporting and storing food that is to be heated at a later stage in the process.

#### THERMOBOX® S - NEUTRAL THERMOBOX

A full range of neutral thermobox options which include insulation only.

Supporting castor for towing set	149014

#### THERMOBOX® K

Equipped with efficient forced-air cooling, which cools the box more rapidly. A cold-air fan ensures a uniform temperature throughout the box. The cold-air supply forms a cold buffer around the food, which eliminates undesirable temperature increases. The temperature is easy to adjust to the desired level and can be read via a digital control unit.

The interior is made entirely of stainless steel with pressed guides and no joints. Insulated with polyurethane, which expands under high pressure and combines the outer and inner containers to form a strong and well insulated unit.

K boxes are ideal for food that is to be served cold as well as for transporting and storing food that is to be heated at a laterstage in the process.

#### THERMOBOX® E

Has an efficient heating system with high operational reliability that heats the box up to the desired temperature. The temperature is easy to adjust and read via a digital control unit.

The interior is made entirely of stainless steel with pressed guides and no joints. Insulated with polyurethane, which expands under high pressure and combines the outer and inner containers to form a strong and well insulated unit.

E boxes are ideal for storing hot food and preserving the quality of the food during transport.

#### THERMOBOX® E - ELECTRIC HEATING

Have an advanced heating system with extremely high reliability. It keeps the temperature within the desired values and with minimal temperature fluctuations.

### An alternative might classic be just as good

E180 and F180 are reliable fixtures in many commercial kitchens, and have been for several years. We still offer these models for those who require a good-value alternative.

Their reliable heating system ensures good food hygiene and efficient food transport. Combined with very efficient insulation, this ensures both low operating costs and a food quality that is evident from the appreciation of diners. As with all our boxes, they have a robust and stable design.

#### THERMOBOX® F CLASSIC - Teknisk specifikation

**Exterior walls:** ABS plastic.

**Inner container:** Welded container in stainless steel. **Guides:** Stainless steel, pressed from the inner container.

**Insulation:** Polyurethane foam.

**Door:** Interior made of stainless steel. Aluminium exterior.

**Wheels:** Hot-dip galvanized steel. 160 mm wheels with rubber tires, two braked and two fixed.

**Top frame:** Stainless steel and PVC corners.

**Trolley frame:** Reject list of galvanized steel coated with PVC. **F:** Effective heating system, convection, with adjustable thermostat, insulation class IP 44, 230 V/1,000 W. CE and S marked.

#### THERMOBOX® F

With efficient convection heating and hot-air fans to maintain a uniform temperature throughout the box. The flow of hot air forms a buffer around the food, which compensates for undesirable heat losses. The temperature is easy to adjust to the desired level and can be read via a digital control unit.

The interior is made entirely of stainless steel with pressed guides and no joints. Insulated with polyurethane, which expands under high pressure and combines the outer and inner containers to form a strong and well insulated unit.

F boxes are ideal for storing hot food where the quality of the food is maintained during transport.

#### THERMOBOX® F - CONVECTION HEATING

Convection heat with added value and many benefits! Short heating time. Hot air fan to compensate temperature losses. Flexible heating cabinet.

#### **THERMOBOX® F - Technical specifications**

Exterior walls: ABS plastic.

 $\label{limited} \textbf{Inner container:} \ \ \textbf{Welded container in stainless steel}.$ 

Guides: Stainless steel, pressed from the inner container.

**Insulation:** Polyurethane foam.

**Door:** Internal surface made of smooth and seamless stainless steel. Exterior in ABS plastic with bolt lock and door mounted handle for one-handed grip.

**Wheels:** Hot-dip galvanized steel. 160 mm wheels with rubber tires, two braked and two fixed.

**Top frame:** Stainless steel and PVC corners.

**Trolley frame:** Reject list of galvanized steel coated with PVC.

**F:** Efficient convection heating system, with electronic temperature control, insulation class IP 44, 230V/1000W. CE and S mark.

#### THERMOBOX® F - Optional extras

200mm castors, 2 fixed and 2 swivel castors with brakes	123006
Towing set	149010
Central brake	123015
Glass door	123017
Extra handles, set of 2	212011
Label holder A5	219028
Eccentric lock	123023
Supporting castor for towing set	149014

#### THERMOBOX® F - Banquet edition for great transports

SDX® Thermobox® Banquet is created for you to carry and serve large quantities of food quickly and efficiently. Ideal for stadiums, hotels and conference centers. The box's large volume, combined with several guides creates a flexible and efficient food transport.

#### **THERMOBOX®** F Banquet - Technical specifications

Exterior walls: Aluminium.

Inner container: Welded container in aluminium.

Guides: Stainless steel guides with rivets.

**Insulation:** Polyurethane foam.

**Door:** Internal surface made of smooth and seamless stainless steel. Exterior in aluminium with bolt lock and door mounted handle for one-handed grip.

**Wheels:** Hot-dip galvanized steel. 160 mm wheels with rubber tires, two braked and two fixed. Banquet FF box has six wheels, two braked and four fixed.

**Trolley frame:** Reject list of galvanized steel coated with PVC. **F:** Efficient convection heating system, with electronic temperature control, insulation class IP 44, 230V/1350W. CE and S mark.

# A SUCCESSFUL COMBINATION!

Transport and storage of both hot and chilled food in the same unit.

To meet different needs, SDX® has many solutions for a successful combination with cooling and heating in the same Thermobox® with or without active cooling or electronic heating.

All variants have the renowned quality of SDX® and contains all-stainless steel interiors i.e., pressed guides in stainless inner receptacles.

# DO YOU WANT A UNIQUE EXTERIOR?

# OPTIONAL EXTRAS

We have a wide range of optional extras for the SDX® Thermobox® to create the perfect tool for your food transportation needs.

### All stainless

Both inside and outside in all stainless. A stylish and hygienic choice.

### Ergonomic central brake

Practical and ergonomic central brake simplifies the management of everyday life.

### **Eccentric lock**

As an option to the bolt lock with door mounted handle we offer an sturdy eccentric lock.

**STYLE** 

## UNIQUE EXTERIOR...

## ...the same quality on the inside

SDX® now gives you the opportunity to create a completely unique Thermobox® with your own colour and your own logo. Obviously with the same high quality and durability as always.

### Choose your colour

Now you can choose the colour of your Thermobox®. To suit your interior or to easily distinguish between different types of boxes.

### All stainless

Both inside and outside in all stainless. A stylish and hygienic choice.

### Standard colours

All our Thermobox® can be delivered in one of our three standard colours blue, red or black. Timeless colours that suit all environments and settings.

### Your logo

### It is important to stand out from the crowd

Do you want to create an even clearer identity, there is the opportunity to decorate the boxes with both your logo or images from your graphical profile.

With your logo on SDX® Thermobox® you can proudly transport your meals while marketing your business.

# MAKE YOUR OWN COMBINATION

If you are struggeling to find the perfect combination for your needs we can help you combine your own Thermobox. We can combine all our modules from the smallest volume with 4 guides to our largest volume with 14 guides.

Please contact us about your food transportation needs and we will give you the solution.

### SDX THERMOBOX

## Market leader in the Nordic region

SDX® develops, manufactures and markets insulated boxes for transport and storage of temperature sensitive products under the brand SDX® THERMOBOX®.

Special features of the SDX® are high quality in every detail, continuous product and personalized service.

In our factory are produced annually thousands boxes for users primarily in the Nordic countries but also to export markets in Europe and beyond.

## Own production for the highest quality

SDX® has all the production is based in Sölvesborg in Blekinge, Sweden.

All our products are manufactured with the "all stainless interior" is pressed guides in stainless steel inner container. A unique technology that provides unsurpassed durability, easy cleaning and enhances safety.
